Szrek2Solutions (S2S) Collaborates with GTECH Corporation to Promote S2S's *Trusted* Product Suite

East Greenwich, RI, April 03, 2009: Szrek2Solutions LLC (S2S) announced that it has entered into a non-exclusive collaborative agreement with GTECH Corporation to promote S2S's *Trusted* product suite. In mutual interest to respond to demand for electronic draws in the gaming industry, GTECH has evaluated S2S's suite of secure, trusted products and will promote these as business opportunities present themselves.

"We recognize there is a growing demand in the gaming industry for cost effective solutions for transparent random number generation," said Irena Szrek, CEO of Szrek2Solutions. "We believe lotteries around the world will benefit from our secure RNG platform and *Trusted* product solutions and we are pleased that GTECH will make them available to its customers in order to satisfy market demand."

S2S's secure RNG platform allows generating non-biased auditable random numbers for all games of chance, ensuring transparency for drawing and betting. Combined with its audit capability, the RNG platform can detect and prevent insider fraud. The RNG and audit methods have been patented in the U.S. and internationally and the RNG has been certified by several laboratories including Gaming Laboratories Inc (GLI). The RNG platform is field proven since 2005, generating hundreds of thousands of verified random numbers daily.

S2S's *Trusted* product suite includes Trusted Draw™, a secure electronic draw platform to replace or augment mechanical draw systems. Trusted Draw supports multiple games and works stand-alone or connected to gaming system, providing a high degree of automation. It offers optional built-in animated draw presentation and audit function providing the draw process exceptional security – based on mathematical proof of draw transparency and integrity.

Trusted Play™ supplements Trusted Draw platform by offering high performance RNG for instant game outcomes and multiplayer games, for a wide range of gaming products and environments. Trusted Play with associated Trusted Audit™, ensuring gaming transparency, functions in a fully automated manner, processing over 1,000 draws per second.

Other S2S's products include Trusted Transactions™, securing lottery transactions, Trusted Ticket™, authenticating lottery tickets, and companion products: Trusted Audit™ providing integrity verification and audit, Trusted Monitor™, allowing remote monitoring of RNG and audit processes and reporting.
